Personal Skills

Agile Methodology

Cambridge English Certificate Level C1

B2 Driving License

Education

Bachelor of Computer Science (BCompSc), Computer science
Universidad Complutense de Madrid

Profile

I am a Front-End developer with great skills in React and Vue frameworks and I am used to a test driven and CI environment using Cypress and Jenkins. I have succesfully worked as a freelancer in different teams and interesting projects such as Progressive Web Applications and Management Systems. Code quality is really important to me, and I strive to deliver code that follows the 'SOLID' and 'DRY' principles.

Work Experience

• Front-End Developer at Hoteliga
(January 2022 - November 2022)

Tech Stack: AngularJS, NET, Azure, Virtual Machines, CI pipelines
- Adding features with AngularJS such as custom forms or subscriptions
